YPIW4

YPIW6

TM150

NEON & Googly Whirlee

Both a ride on and a first walker, the Neon (TM150) & Googly Whirlee (TM155) is a great development product that teaches balance and stability. The 360 degree soft ride casters won't scuff floors. Designed for ages 1 to 3. 44 lbs maximum.

TM155

Toyni

This fun 2 in 1 balance trike is designed for kids as young as 1 year old. Two different positions of the rear wheels, easily changes the degree of balance required from basic to more “advanced”. For ages 1 to 3. Max weight of 44 lbs.

Stage 1: Wheels Out

Stage 2: Wheels In

Bounce Cycle

The bouncy, bobbly bike, that you bounce up and down to move forward. Designed with chunky wheels for excellent stability. Can be used for outdoor and indoor riding. The easy steer cycle is propelled as the child bounces up and down. Designed for ages 18 mo+. 55 lbs maximum.

TP637

active fun™

YBike Original

The YBIKE Original is the best way to develop motor skills and balance through riding! The unique design includes features such as dual rear wheels, extended angle on the front handlebar, covered rear wheels and high ground clearance which allow for greater leg freedom and a fun safe ride. Studies have shown that the YBIKE Original encourages substantial improvements in balance, coordination and self-confidence. Ages 2 to 5. Max weight 55 lbs.

Evolve

Unlike most combination ride-ons the patented conversion system easily allows a parent to convert the Evolve from a classic style pedal Trike to a Balance Bike (with two rear wheels and no pedals) and ultimately to a more advanced Running Bike (with one rear wheel and no pedals).

Adjustable seat allows the Evolve to grow with the child. Designed for children ages 2 to 5. Max weight 66 lbs.

YBIKX3

YBIKX4

Extreme 2.0

The new YBIKE Extreme 2.0 features new lightweight easy roll wheels and a lighter weight frame. Still equipped with solid rubber wheels, no punctures means more fun! Ages 2 to 5. Max weight 66 lbs.

GLX

The practical “Lean and Steer” three wheel design of the award winning GLX is the best scooter for little ones still learning to balance. Features include a super wide rear wheel for extra stability, built in raised grip surface on the scooter deck, light weight aluminum handlebar and easy to use rear brake. Perfect for kids ages 2 to 5 with maximum weight of 44 lbs.

YGLX1

YGLX2

YGLX3

GLX PRO

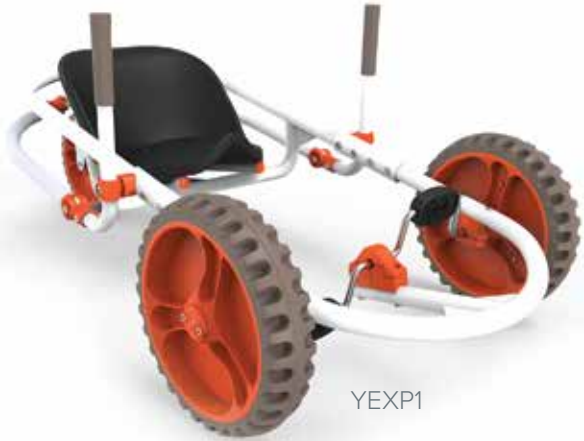
Maintaining the highly successful 3 wheel “Lean and Steer” design, the GLX PRO is the perfect scooter for children ages 5 and up. The adjustable handle bars extend from 28 inches above the deck to 32.5 inches enabling the PRO to grow with the child. Larger 125mm front wheels, new fiber reinforced non slip ABS deck insures a fast, smooth, thrilling ride. Ages 5+. Max weight load 110 lbs.

YGLXP1

YGLXP2

Explorer

The unique pedal power design with rear wheel steering. Light weight steel tubing with heavy duty puncture proof rubber tires allows the Explorer to travel on most surfaces. Adjustable seat positions allow the product to grow with the child. Designed for children ages 5+. Max weight 110lbs.



YEXP1

YEXP2

Explorer 2.0

This new version of our award winning Explorer boast new low roll-resistant solid TPR tires for increased speed and durability. Updated features include a lightweight aluminum frame, safety flag, adjustable seat and new extension bars that allows the Explorer 2.0 to accommodate a wider variety of riders. Ages 4+. Max weight load 155 lbs.

B100

B100W

Classic Skates

Founded in Chicago in 1905 Chicago Skates has been the leading brand in the skate industry for over 100 years. Owned by National Sporting Goods, Chicago Skates remain the classic standard in the skate industry. In addition to our popular classic quad collection, we have branched out into innovative inline skates, skateboards and other wheeled product lines and accessories.

CRS110

CRS210

Quad Skates

The Chicago quad skate continues to be one of our most popular segments. For the beginner, Chicago offers the multi-adjust boot that grows with the child as they hone their skating skills. No need to change skates year after year. Once the basic skills are mastered the size fitted quad skates increases performance and speed while providing comfort with a stitched upper-boot and padded collar.

Inline Skates

The Chicago Skate inline series comes in a variety of material that's tailored from the intermediate to advanced skater who is looking for torsional stiffness. Comfort begins in the boot liner. The Chicago inline skate liners are stitched for comfort and breathability. Enhanced by multi-size push button adjustments, the fit is sure to be right. Regardless of the skate or ones ability, the attention to detail is second to none.

Training Skates and Combo Sets

The Chicago Skates line begins with our series of trainers in combination sets that include protective gear to make the learning process gentler.

Chicago Skates offers something for the whole family. We know that children grow before they can even wear-out a pair of shoes. Therefore, we offer a line of kid's inline and quad adjustable skates. Couple this with quality materials and it becomes a skate that will endure from the child's first wobbly attempt to blazing down the sidewalk.

Let's play!

Little Bouncer

A new concept in bouncing- a straight out of the box, easily put away and highly portable trampoline for children as young as 12 months. Little Bouncer is close to the ground and easy for very young children to access. The handle provides support and confidence to exploring toddlers. Since bouncing requires effort and energy, it helps make children fitter too. Designed for ages 1 to 3. Max weight 44 lbs.

TP951

SpiroBouncer

The spinning, bouncing, bobbling seesaw for 2 to 5 year olds that can be used indoors or outside. This advanced seesaw bounces up and down and spins 360 degrees. The soft ball cushions maximize bounce and minimize impact. Includes a blow-molded base that can be weighted for additional stability. The SpiroBouncer develops strength, coordination & balance The SpiroBouncer is designed to support a maximum of 55 lbs weight at each end.

TP983

Spiro-Hop

The bigger-stronger garden version of the SpiroBouncer. Built with steel tubing and durable inflatable soft ball cushion for hours of fun. Teeter and spin at the same time makes this an enjoyable ride for energetic youngsters. For ages 4 to 8; up to 75 lbs. per seat.

TP749

NSG Pogo Sticks

NSG Pogos are a breed all their own. Designed for sport level performance and durability which allows for trick and stunt skill development. Combining the classic form for traditional bouncing with unparalleled performance.

Performance Features:

- (LFS Tech) Low Friction Spring Technology. Offering a quieter, smoother & higher bounce.
- Progressive Spring: Wider weight range, offering more height & dampens sudden stops when stick bottoms out.
- Durable hydro-formed steel shell.
- Strong Steel Piston with replace-able rubber sphere tip - Provides higher bounce, more control & better balance & comfort.
- Welded flat bottom side foot plates for better stability, control and advanced tricks such as stalls and grinds
- Real Grips - Co-molded rubber.

Reflex Soccer

Designed for anyone over 6 years who enjoys soccer. The durable, water-filled base allows play virtually anywhere. Fill the base with water then adjust the spool to set the required length of cord. Shortening the cord increases the speed of the returning ball.

There are three ways to play:

- **Solo practice:** Either with or without a target goal.
- **Two or more players:** Each player takes turns to return the ball.
- **Goal keeping practice:** Placing the Reflex Soccer base in front of the goal, the keeper kicks the ball away, then tries to save the returning ball.

MK7226

Jr Sports Boxing

With a focus on fitness boxing teaches balance and hand-eye coordination while building confidence. The NSG freestanding boxing set. With boxing gloves included, this set has a blow molded base that can be weighted with water or sand. A top of the spring loaded shaft is an inflatable punching bag with pump included. Ages 3+.

JS1000

All Surface Swingball Pro

Pro Swingball can be played just about anywhere or any surface such as grass, decking concrete or even sand. Simply fill the base with water or sand for stability, quickly set up and your ready to play. All components pack away into the base, ideal for storage and transportation. Complete with two heavy duty checker bats and scoring system. For ages 6+.

SWINGBALL

Height: 72”

MK7216

Championship Swingball

From ages 4+ the whole family can enjoy the Classic Swingball game. Steel constructed pole is adjustable and expands in height. Easy to learn, hours of endless fun. Set comes complete with 2 light weight but strong checker bats. All Surface Swingball that can be played anywhere from the beach to the backyard.

Height: 48”

MK7215

MK7241

Swingball 3-in-1

Designed after the classic Swingball to be played on various surfaces, this set includes Swingball, basketball and soccer. All three games fit into the base case. For ages 3+. Height: 43”

TailBall

This Swingball Tailball Set is a simple fun game that can be played anywhere on any surface. Just hit and return, it's that simple. Great fun, exercise and good for improving hand-eye coordination. Unique stream tail enables Taiball to fly far and accurate. For ages 4+.

MK7214

Active Play 3-in-1 Gym Set

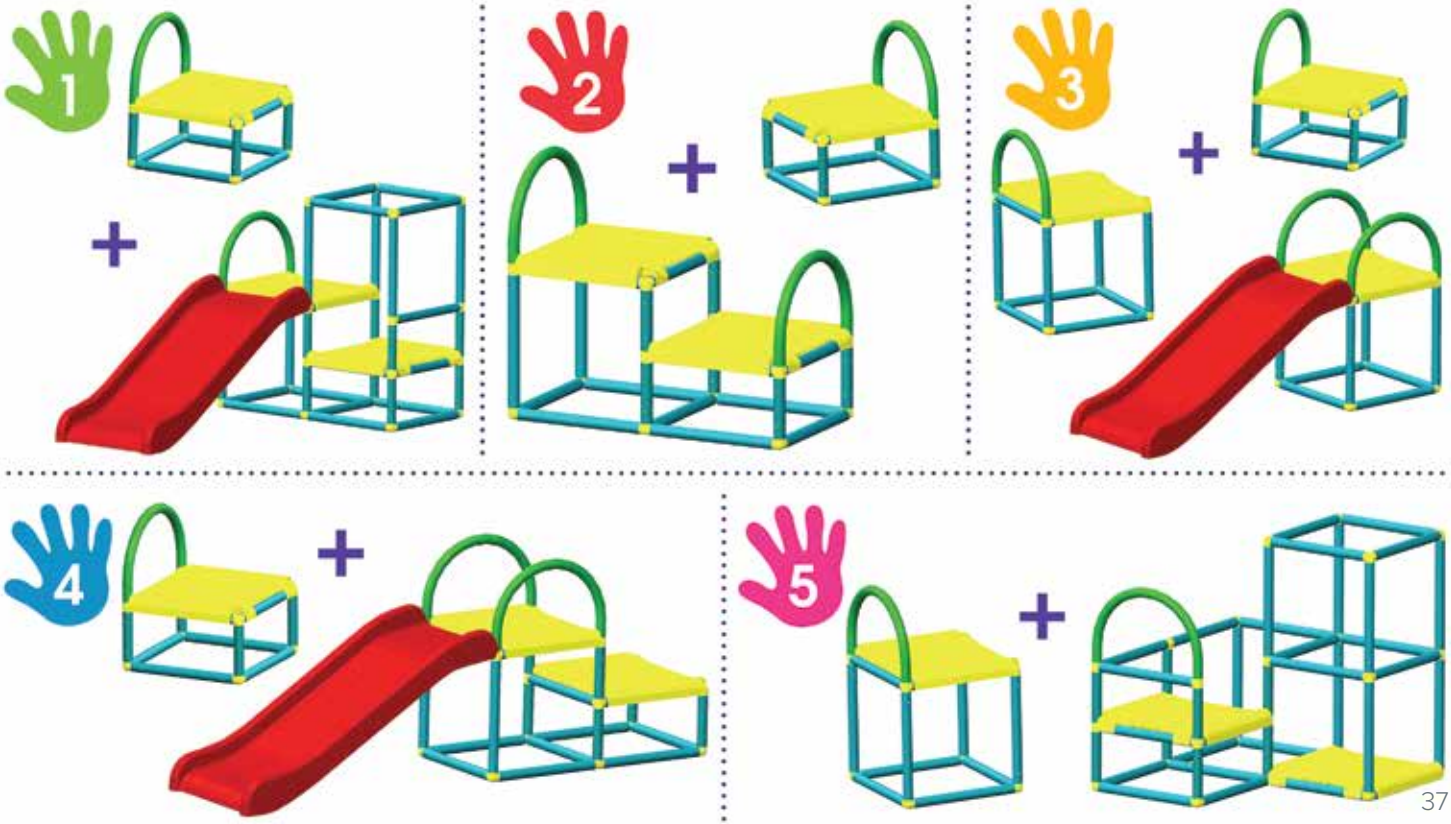
Ideal for youngsters. Made from sturdy plastic construction and enhanced with double self-locking springs which hold tubes together. This set includes 50 balls, slide, target, ball storage & toss target. Ages 1 to 3.

eezy peezy

TM300

Interchangeable Play-Set

With 5 different options for assembly this set offers various elements of play for the child. Made of durable plastic construction and double locking springs. Includes three platforms and a slide. For ages 1 to 3. TM400



TM200

Monkey Bars

Providing hours of endless play for toddlers. The Monkey Bars are made of quality plastic enhanced with UV protection. Though durable, this set is surprisingly lightweight and easy to assemble with positive-engagement interlocking post and joints. Great for hours of fun indoor and outdoor. Ages 3 to 6. Max load 150 lbs.
